

UNIVERSITI TEKNOLOGI MALAYSIA SUMMER SCHOOL PROGRAM

SS02 Culture Landscape in Malaysia

The course offers a unique experience to various cultural landscape ecotypes of Peninsular Malaysia. Participants will have a study trip to a few states in Peninsular Malaysia. They will analyse the cultural landscape of rural and urban characters: from farmlands and villages at the peripheral of towns and cities to the newly planned and developed cities. The participants will also study the influence of culture on the Malaysian landscape.

Duration

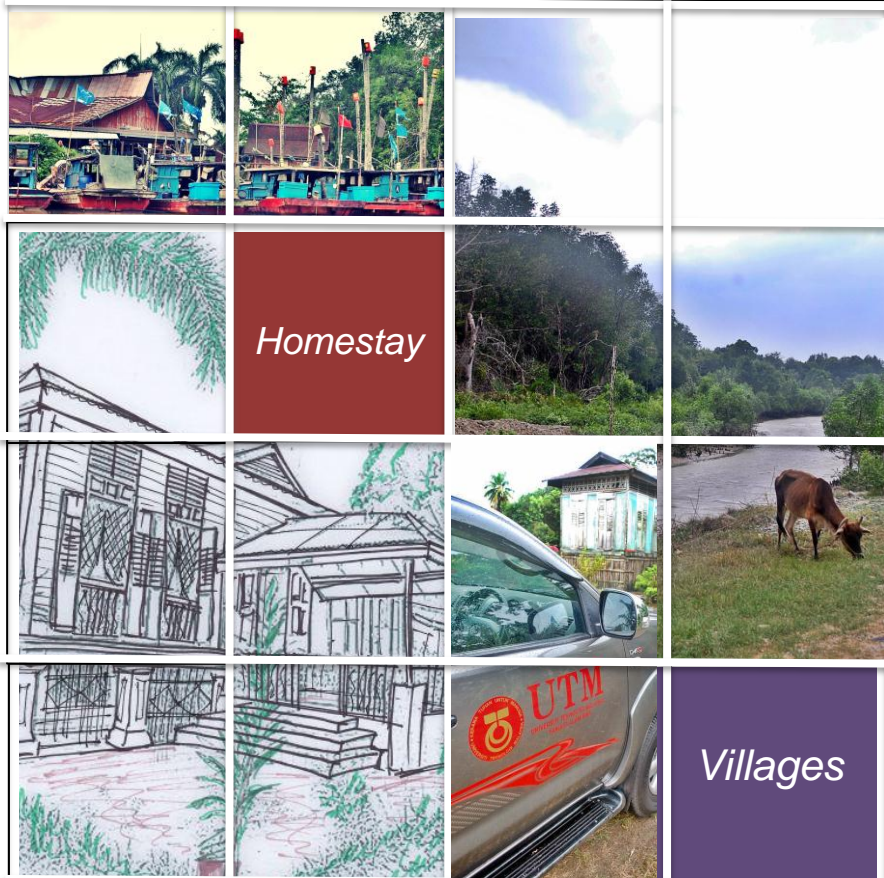

2 - 3 week Program

How the Program is Conducted?

These programs involve field visits, homestays and workshops and can be custom-made according to specific requests from the participants to fit their requirements.

Participants

The number of participants is expected to be between 16 to 24 and will participate alongside 10 to 16 local students who will act as facilitators during the program. A program kit will be given to participants to guide them through the course.

Fee:
USD 1,000 (2weeks)
USD 1,500 (3weeks)
*Price is negotiable for partner universities.
