

Swap and Transfer

Welcome to **Swap and Transfer** - SAT an Erasmus Mundus project funded by the EU Commission under the European programme Erasmus Mundus Action 2, aimed at fostering **Sustainable development, Innovation**, and **Technology transfer**, by promoting intercontinental cooperation and the mobility of 205 grantees between Europe and Eastern Asia.

9 European universities, 15 Asian universities, 3 associate networks and 2 NGO (non governmental organisations) are involved in academic exchanges, mobility and research under the joint coordination of the **University of Trento - Italy**, and **University of Burapha - Thailand**.

The Swap and Transfer activities, Mobility and Thematic clusters, will converge to attain a Virtual Technology Incubator available to the broad community.

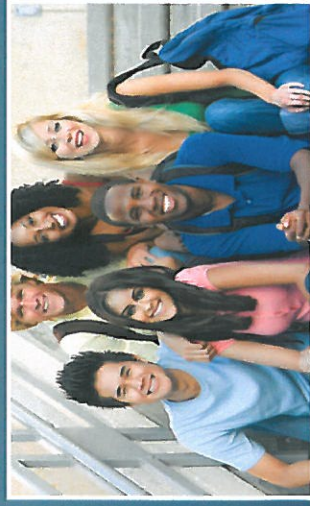

Explore different styles to live, study, work, innovate

The Erasmus mundus scholarship are awarded upon selection to perform study and research activity at one of the partner Universities in Asia or Europe.

Grants addressed to **staff** and **student** mobility are differently sized, ranging from **1000** to **2500** Eur/month, to cover :

students at undergraduate (bachelor), graduate (master) and doctoral level - and staff including postdoc researchers, academic and administrative staff.

Travels, Tuition and Insurance fees, centrally managed, are also covered by the programme .

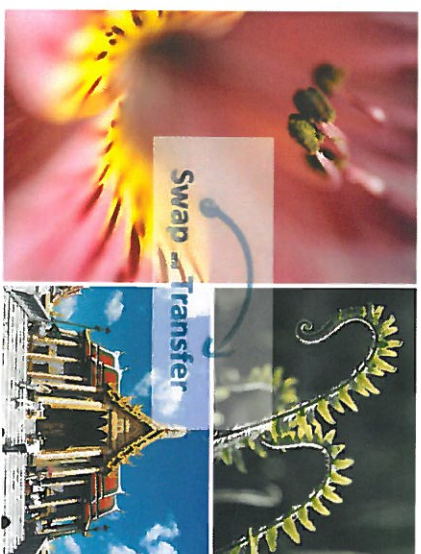

Thematic clusters

Thematic Knowledge clusters will gather the scientific community and stakeholders around central areas relevant to hit sustainable development targets and to promote local competitiveness, by reinforcing and exploiting scientific relationships, and to build sustainable paths for innovation transfer and entrepreneurship.
