

Chulabhorn Graduate Institute – ASEAN Foundation

Joint Post-graduate Scholarship Program in Science and Technology

(Academic Year 2021)

The Chulabhorn Graduate Institute (CGI) and the ASEAN Foundation (AF) have entered into an agreement to develop highly qualified human resources in the area of science and technology within ASEAN Member States through the Chulabhorn Graduate Institute – ASEAN Foundation Post-graduate Scholarship Programme in Science and Technology.

The CGI is a multidisciplinary post-graduate academic institute established in 2005, under the initiative of Professor Dr. Her Royal Highness Princess Chulabhorn Mahidol. The aim of CGI is to employ the most recent interactive teaching techniques used in world leading educational and research institutions to train trainees in the programme to be effective thinkers and leaders in their field of expertise, to better serve their countries' needs towards sustainable development. The CGI is presently offering programmes leading to Master's and Doctoral Degree in Applied Biological Sciences: Environmental Health, Environmental Toxicology, and Chemical Science.

The ASEAN Foundation is an organization from and for the people of ASEAN. Three decades after ASEAN was established, the ASEAN Leaders recognised that there remained inadequate shared prosperity, ASEAN awareness, and contact among the people of ASEAN. It was of this concern that the ASEAN Leaders established the ASEAN Foundation during the ASEAN's 30th Anniversary Commemorative Summit in Kuala Lumpur, Malaysia, on 15 December 1997. The ASEAN Foundation exists because of one vision: to build a cohesive and prosperous ASEAN Community. As an ASEAN's body, the ASEAN Foundation is tasked to support ASEAN mainly in promoting awareness, identity, interaction, and development of the people of ASEAN.

This year, ten (10) scholarships are available for ASEAN nationals (except Thai citizen) who are interested to pursue a Master's Degree at the CGI. Selection of successful applicants will be based on merit.
